PARAFINE™
HORTICULTURAL OIL

FOR USE ON WOODY ORNAMENTALS, CITRUS, APPLES, AND PALM TREES TO CONTROL WHITE FLIES, SCALE, MEALY BUGS AND OTHER LISTED INSECTS

Net Contents Liquid:
1 Pint (.474 liters)

ACTIVE INGREDIENT
Paraffinic oil .................. 98.00%
(Unsulfonated residue not less than 92%)
INERT INGREDIENTS: ........ 2.00%
TOTAL: .................... 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION
See inside of label for additional Precautionary Statements and Directions for Use.
Follow directions on side of label to open.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. IF IN EYES: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. HAVE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR.

DIRECTIONS FOR USE

Agricultural Use Requirements continued: Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: (1) Coveralls, (2) Chemical-resistant gloves, such as Barrier laminate, or Nitrile rubber, or Neoprene rubber, or Viton, and (3) Shoes plus socks.

Precautionary statements continued: an EPA chemical resistance category selection chart. Applica-
tors and other handlers must wear: 1. Long-sleeved shirt and long pants. 2. Chemical resistant gloves, such as barrier laminate, nitrile rubber, neoprene rubber, or viton. 3. Shoes plus socks. Follow manufacturer’s instructions for cleaning and maintaining PPE. It is no such instructions for wash-
ables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of washwaters. Apply this product only as specified on the label.

Non-agricultural use requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Keep children and pets off treated area until spray has dried.

General information

Mix thoroughly the proper amount of oil and water in the spray tank and continue agitation during spraying. Do not allow the mixture to stand. For scalicides to be effective, thorough coverage is essential. Better scale control can be anticipated when applications are made when scale insects are in the crawler stage.

Use precautions

In general, woody ornamentals are more tolerant to oil sprays than tender succulent plants. If oil applications must be made to tender plants, they may be syringed off with clear water about an hour after applying oil. Do not apply oil sprays to plants that are wilting or are near wilting from lack of mois-
ture. Do not apply oil with sulfur or lime sulfur. Do not apply an oil spray within 3 weeks before or after an application of sulfur or lime sulfur. Avoid spraying during periods of excessively high temperature (above 90°F). Do not exceed three oil sprayings per year. Do not use more than the suggested dosage, for to do so may cause plant injury.

Precautionary statements

Hazard to humans and domestic animals

Caution: Harmful if swallowed, inhaled, or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wash contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

Personal protective equipment

Some material that are chemical-resistant to this product are listed below. If you want more options follow the instructions for Category E on (continued in next column)

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instruc-
tions and exceptions pertaining to the statements on this labeling about personal protective equipment (PPE), restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Non-agricultural use requirements

When this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Keep children and pets off treated area until spray has dried.

General information

Mix thoroughly the proper amount of oil and water in the spray tank and continue agitation during spraying. Do not allow the mixture to stand. For scalicides to be effective, thorough coverage is essential. Better scale control can be anticipated when applications are made when scale insects are in the crawler stage.

Use precautions

In general, woody ornamentals are more tolerant to oil sprays than tender succulent plants. If oil applications must be made to tender plants, they may be syringed off with clear water about an hour after applying oil. Do not apply oil sprays to plants that are wilting or are near wilting from lack of mois-
ture. Do not apply oil with sulfur or lime sulfur. Do not apply an oil spray within 3 weeks before or after an application of sulfur or lime sulfur. Avoid spraying during periods of excessively high temperature (above 90°F). Do not exceed three oil sprayings per year. Do not use more than the suggested dosage, for to do so may cause plant injury.
NON-DORMANT USES
SUGGESTIONS FOR USE WHEN PLANT IS ACTIVELY GROWING
This includes all suggested Florida uses as well as suggested uses on actively growing plants (non-dormant) in other Southeastern areas. Do not apply in Florida after October 1st. Do not use when temperatures fall below 42°F within 3 weeks of application. If second application of oil is necessary, do not apply within six weeks after first oil spray. Avoid spraying open blooms.

DORMANT USES
Dormant oil sprays are applied during the winter and early spring in those areas where many plants reach true dormancy (not Peninsula Florida). Dormant oil sprays should not be applied in freezing weather. Preferably, temperatures should be above 40°F. Dormant sprays are generally more effective in the spring just before new growth starts.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store pesticide in the original container in a locked storage area.

PESTICIDE DISPOSAL: (Household only): If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain. PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: (Household only): If empty: Do not reuse this container. Place in trash or offer for recycling if available. CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

WARRANTY STATEMENT
Follow instructions carefully. Timing, method of application, weather conditions, mixtures with other chemicals and other influencing factors in the use of this product are beyond control of the seller. Buyer assumes all risks of use, storage, or handling not in strict accordance with the directions and precautions given herewith.
