

**Manufacturer's Name & Address**

Southern Agricultural Insecticides, Inc.  
P.O. Box 218, Palmetto, Fla. 34220

Phone: 1-813-722-3285  
Chemtrec: 1-800-424-9300

**I NOMENCLATURE**

**Product Name:** 20-5-30 SOLUBLE FERTILIZER  
**Chemical Name:** Not applicable (mixture of fertilizer materials)  
**Chemical Family:** Mixture of inorganic salts and urea

**II INGREDIENTS**

**Potassium nitrate** CAS No.7757-79-1 TLV Not established  
**Monoammonium phosphate** CAS No.7722-76-1 " " "  
**Urea** CAS No.57-13-6 " " "  
Nuisance dust exposure limits apply (respirable) TLV 5 mg/M<sup>3</sup> (total dust) TLV 15 mg/M<sup>3</sup>

**III PHYSICAL PROPERTIES** (ND=Not determined,NA=Not applicable)

**Boiling Point:** NA **Specific gravity:** (H<sub>2</sub>O=1) 2.0  
**Vapor pressure:** (mmHg) NA **Percent Volatile:** (by volume) NA  
**Vapor Density:** (air=1) NA **Evaporation Rate:** NA  
**Solubility In Water:** Soluble **Reactivity in Water:** Negligible  
**Appearance/Odor:** Light blue, fine crystalline powder, practically no odor

**IV FIRE AND EXPLOSION DATA** (These mixture is classed as an "OXIDIZER")

**Flash Point:** (Potassium nitrate above 300°F). **Flammable Limits:** NA  
**Extinguishing Media:** Flood with water in early stages. Water may spread molten material. Use water spray to cool containers.  
**Special Fire Fighting Procedures:** Personnel should remain upwind. Firemen should wear self contained breathing apparatus (air-pac) and full protective clothing.  
**Unusual Fire Explosion Hazards:** Under fire conditions, toxic fumes may be evolved. Do not breathe smoke or vapors generated. Keep dust to a minimum. The presence of powerful oxidizing agents will increase intensity of existing fires. The possibility of an explosion exists.

**V FIRST AID**

**First Aid for EYE Exposure:** Flush eyes for 15 minutes with plenty of water, lifting upper and lower lids occasionally while flushing. Get medical attention if irritation occurs.  
**First Aid for SKIN Exposure:** Remove contaminated clothing and wash all exposed skin surfaces thoroughly with soap and water. If irritation develops, see a physician.  
**FIRST Aid if SWALLOWED:** If person is conscious give large amount of water. Induce vomiting only if large amount was swallowed. Get immediate medical attention if swallowed.  
**First Aid for INHALATION:** Remove to fresh air. If symptoms occur, consult physician immediately.  
**SYMPTOMS of OVEREXPOSURE:** May irritate eyes, nose, throat and skin.  
Ingestion of large quantities can cause nitrate poisoning.

**VI REACTIVITY**

**Stability:** Stable under normal use conditions.  
**Conditions to avoid:** Heat and ignition sources.  
**Materials to Avoid:** Materials that are readily oxidized, sulfur, carbon, organic materials, mineral acids, chlorides, particularly oils, and other flammable or combustible materials.  
**Hazardous Decomposition Products:** Decomposition may be violent under fire conditions to release oxides of nitrogen, phosphorus, and Hydrogen cyanide and biuret.  
**Hazardous polymerization:** Will not occur.

**VII SPILL OR LEAK PROTECTION**

**Steps To Be Taken If Spilled:** Sweep up and shovel into secure labeled unsealed containers for disposal.

**Waste Disposal:** Residue can be used as fertilizer, otherwise dispose of according to local, State and Federal regulations.

**VIII SPECIAL PROTECTION**

**Respiratory:** Type/Conditions: Where adequate ventilation is not available, or where TLV would be exceeded, wear a NIOSH approved dust respirator.

**Ventilation:** Use local exhaust ventilation to minimize dust exposure.

**Gloves:** Clean impervious gloves to minimize exposure.

**Eye Protection:** Safety glasses with side shields or chemical goggles.

**Other protective equipment:** Clean, freshly laundered, body covering work clothing daily. Washing facility and eyewash station should be available.

**IX SPECIAL PRECAUTIONS**

**Handling Precautions:** Avoid personal contact with product. When applied as a spray avoid breathing spray mist. If used in combination with pesticides, follow all safety precautions for the pesticides used. Wash thoroughly after use. Do not wear contaminated clothing. Do not damage containers while handling. Clean up spills immediately.

**Storing Precautions:** Do not place leaking or damaged containers into storage. Store in cool, dry, well ventilated area away from ignition sources. Do not stack within 2 1/2 ft of walls or 3 ft of ceiling. Leave air space between stacks. Do not store with indicated "Materials to avoid" (see section VI). Do not store on oil contaminated floors. Avoid storage on wood floors.

**Other Precautions:** KEEP OUT OF REACH OF CHILDREN. Do not contaminate any body of water by cleaning equipment or disposal of waste.
