1. IDENTIFICATION

Date of issue: July 2015
Product Name: Bifenthrin GC
Recommended Use: Insecticide
Restrictions on Use: Activities contrary to label recommendation
EPA Registration No.: 70506-74-829
Company: Southern Agricultural Insecticides, Inc
P.O. Box 218
Palmetto, FL 34220
(941) 722-3285 Chemtrec (800) 424-9300 (24 hour transportation spill response)
Medical: Rocky Mountain Poison Control Center (866) 673-6671 (24hrs)

2. HAZARD(S) IDENTIFICATION

Classification
OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)
Acute toxicity - Dermal Category 4

Label elements

Signal word: Warning

Emergency Overview

Hazard Statements: Harmful in contact with skin

Precautionary Statements-Prevention:
Wear protective gloves/protective clothing/eye protection/face protection

IF ON SKIN: Wash with plenty of soap and water
Call a POISON CENTER or doctor if you feel unwell
Wash contaminated clothing before reuse

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

Hazards Not Otherwise Classified (HNOC)

OTHER INFORMATION
• Very toxic to aquatic life with long lasting effects
• Very toxic to aquatic life
• May be harmful in contact with skin

3. COMPOSITION/INFORMATION ON INGREDIENTS

If CAS number is "proprietary", the specific chemical identity and percentage of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

FIRST AID MEASURES

Eye contact  Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or for treatment advice.

Skin contact  Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

Inhalation  Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

Ingestion  Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Call a physician or poison control center immediately.

Protection of First-aiders  Use personal protective equipment.

Most Important Symptoms and Effects, Both Acute and Delayed
No information available.

Indication of Any Immediate Medical Attention and Special Treatment Needed
Notes to physician Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:  Use: Dry chemical. Carbon dioxide (C02). Water spray, alcohol-resistant foam.

Unsuitable extinguishing media:  No information available.

Specific hazards arising from the chemical:  No information available.

Explosion data
Protective equipment and precautions for firefighters:  Use personal protective equipment. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions:  Avoid contact with the skin and the eyes. Use personal protective equipment. Wear protective gloves/clothing and eye/face protection.

Environmental Precautions:  Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinent environmental permits.

Methods and material for containment and cleaning up:  Sweep up and shovel into suitable containers for disposal.

7. HANDLING AND STORAGE
Precautions for safe handling: Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Keep out of reach of children.

Conditions for safe storage, including any incompatibilities:
Storage: Keep containers tightly closed in a cool, well-ventilated place.
Incompatible materials: No materials to be especially mentioned.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure guidelines
Exposure Limit Respirable dust

<table>

<td>0.05</td>
</tr>
</tbody>
</table>

Engineering controls: Investigate engineering techniques to reduce exposures. Local mechanical exhaust ventilation is preferred. Consult ACGIH ventilation manual or NFPA Standard 91 for design of exhaust systems.

Personal protective equipment

Eye/Face Protection: Use eye protection to avoid eye contact. Where there is potential for eye contact have eye flushing equipment available.

Skin protection: Wear protective gloves/clothing. Socks and footwear.

Respiratory protection: Where airborne exposure is likely, use NIOSH approved respiratory protection equipment appropriate to the material and/or its components. Full facepiece equipment is recommended and, if used, replaces need for face shield and/or chemical goggles. If exposures cannot be kept at a minimum with engineering controls, consult respirator manufacturer to determine appropriate type equipment for given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where there may be a potential for significant exposure, use an approved full face positive-pressure, self-contained breathing apparatus. Respiratory protection programs must comply with 29 CFR 1910.134.

General hygiene considerations
Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing before re-use. Wear suitable gloves and eye/face protection. Wash hands before breaks and immediately after handling the product.

10. STABILITY AND REACTIVITY

Reactivity: no data available
Chemical stability: Stable under normal conditions. Hazardous polymerization does not occur.
Possibility of hazardous reactions: None under normal processing.
Conditions to avoid: Keep away from open flames, hot surfaces and sources of ignition.
Incompatible materials: No materials to be especially mentioned.
Hazardous decomposition products: Carbon dioxide (CO2), Carbon monoxide, Hydrogen chloride, Hydrogen fluoride.

11. TOXICOLOGICAL INFORMATION

The data on toxicology refer to the active ingredient.

Information on Likely Routes of Exposure

Product information: Bifenthrin GC
Acute oral LD50 (rat) > 5000 mg/kg - for similar formulation
Acute dermal LD50 (rabbit) > 2000 mg/kg - for bifenthrin
Inhalation: May cause irritation of respiratory tract.
Eye contact: May cause irritation.
Skin contact: May be harmful if absorbed through the skin.
Ingestion: MAY BE HARMFUL IF SWALLOWED.

Reproductive effects Not Available.
STOT - Single Exposure No information available.
STOT - repeated exposure No information available.
Chronic toxicity Avoid repeated exposure.
Target organ effects Respiratory System, Eyes.
Aspiration hazard No information available.

Numerical Measures of Toxicity - Product information

LD50 Oral  > 5000 mg/kg (rat)
LD50 Dermal  > 2000 mg/kg (rat)

12. ECOLOGICAL INFORMATION

ecotoxicity

Bifenthrin : Highly toxic to fish and aquatic arthropods (LC50 values between 0.0038 to 17.8 ug/L. Slightly toxic to water fowl and upland game birds (LD50 between 1800 to >2150 mg/kg)

Persistence/Degradability No information available.
Bioaccumulation/Accumulation No information available.
Other Adverse Effects No information available

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Waste Disposal Method Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If the wastes cannot be disposed of by use or according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Contaminated packaging Refer to product label.

14. TRANSPORT INFORMATION

DOT NOT REGULATED
TDG NOT REGULATED
IATA NOT REGULATED
IMDG/IMO NOT REGULATED

Quartz is registered on the TSCA chemical inventory. However, it is not regulated.

15. REGULATORY INFORMATION

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

signal word CAUTION

Ventilation Control PESTICIDE APPLICATORS & WORKERS THESE WORKERS MUST REFER TO PRODUCT LABELING AND DIRECTIONS FOR USE IN ACCORDANCE WITH EPA WORKER PROTECTION STANDARD 40 CFR PART 170.

Keep out of Reach of Children. Harmful if absorbed through the skin. Extremely toxic to aquatic organisms including fish and invertebrates.

16. OTHER INFORMATION

NFPA HEALTH 1 Flammability 1 Instability 0 Physical hazard -

Southern Agricultural Insecticides, Inc. urges each customer or recipient of this (M)SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this (M)SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer’s/user’s responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer’s/user’s duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific (M)SDSs, we are not and cannot be responsible for (M)SDSs obtained from any source other than ourselves. If you have obtained an (M)SDS from another source or if you are not sure that the (M)SDS you have is current, please contact us for the most current version.
