## 16-3-16 Soluble Fertilizer Safety Data Sheet \#64810

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

## 1. PRODUCT AND COMPANY IDENTIFICATION

## Date of issue: September 2015

Product Name:
Recommended uses:
Restrictions on uses:
Manufacturer:

## Company Telephone/Fax:

Emergency Telephone Number:

16-3-16 Soluble Fertilizer
Fertilizer end-use, preparation of fertilizers mixtures.
Dry fertilizer mixture for mixing with water for foliar and soil applications.
None
Southern Agricultural Insecticides, Inc.
P.O. Box 218

Palmetto, FL 34220
(941) 722-3285/(941) 723-2974
(800) 424-9300 (CHEMTREC)

## 2. HAZARDS IDENTIFICATION

This product is to be considered as a mixture/preparation
Classification of the chemical in accordance with 29CFR §1910.1200
Hazard classes and Hazard categories Hazard statements
Oxidizing solid, Cat. 3
May intensify fire; Contains Potassium Nitrate, an oxidizer
Causes serious eye irritation Cat. 1

## Label elements Hazard pictograms

## Signal word Hazard Statements

Warning
May intensify fire; Contains Potassium Nitrate, an oxidizer Causes serious eye irritation

## Precautionary Statements

Keep away from flammable / combustible / reducing materials.
Wear protective gloves / protective clothing / eye protection. Wash hands and face thoroughly after handling.
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.
In case of fire: use any suitable mean for extinguishing surrounding fire. Spray water for small fires. For large fires flood with abundant water.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
IF exposed or concerned: Get medical advice/attention.
Store locked up
Dispose of contents/container according to local/state/federal regulations.
Other hazards: None
Classification of the relevant ingredients of the mixture in accordance with 29CFR §1910.1200
Potassium nitrate Oxidizing solid, Cat. 3
Ammonium nitrate Oxidizing solid, cat. 3; Eye irrit. cat. 2
Magnesium nitrate Eye irrit. cat. 2
Calcium nitrate Serious eye irrit. cat. 1

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is to be considered as a mixture/preparation

| Substance name | CAS No | EC No | Concentration |  |
| :--- | :--- | :--- | :--- | :--- |
| Potassium nitrate | $7757-79-1$ | $231-818-8$ | $37.5 \%$ | 1 of 7 |

| Ammonium nitrate | $6484-52-2$ | $229-347-8$ | $17.5 \%$ |
| :--- | :--- | :--- | :--- |
| Magnesium nitrate | $13446-18-9$ | $233-826-7$ | $14.0 \%$ |
| Calcium Nitrate | $15245-12-2$ | not known | $22.0 \%$ |
| Monopotassium phosphate | $7778-77-0$ | $231-913-4$ | $<1 \%$ |
| Sodium borate | $12280-03-4$ | not known | $<1 \%$ |

## 4. FIRST AID MEASURES

## Description of first aid measures

## General information

In case of persisting adverse effects consult a physician. Never give anything by mouth to an unconscious person or a person with cramps.

## In case of inhalation

Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention for any breathing difficulty.
In case of skin contact
Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.
In case of eye contact
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
In case of ingestion
Rinse mouth and drink plenty of water. Do not induce vomiting. Call a POISON CENTER or doctor/physician if you feel unwell.

## Most important symptoms and effects, both acute and delayed

The following symptoms may occur:
In case of inhalation Irritation to respiratory tract
Delayed lung effects after short term exposure to thermal degradation products
In case of skin contact May cause redness or irritation
In case of eye contact Causes serious eye irritation
In case of ingestion Ingestion of large amounts may cause:
gastrointestinal disturbances
Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

## Extinguishing media

Suitable extinguishing media: Use any suitable mean for extinguishing surrounding fire. Spray water for small fires. For large fires flood with abundant water.
Unsuitable material:
None, but attention should be paid to compatibility with surrounding chemicals

## Specific hazards arising from the chemical

Oxidizer. Contact with combustible materials will not cause spontaneous ignition, however, this product will enhance an existing fire.
Thermal decomposition can lead to the escape of toxic/corrosive gases and vapours.
Thermal decomposition products: Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.
Protective equipment and precautions for firefighters
Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (self contained breathing apparatus (SCBA)).

## 6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Provide adequate ventilation. Wear personal protection equipment (Section 8).

## Environmental precautions

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.
Methods and material for containment and cleaning up
Take up mechanically, placing in appropriate containers for disposal or recovery.
Unsuitable material for containment/taking up: Do not absorb in saw-dust or other combustible absorbents.

## Other information

None

## 7. HANDLING AND STORAGE

## Precautions for Safe Handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid generation of dust. Provide adequate ventilation. Wear personal protective equipment. Wash hands and face thoroughly after handling. Do not eat, drink or smoke when using this product. Keep away from flammable, combustible and reducing substances.

## Conditions for safe storage, including any incompatibilities

Keep/store only in original container. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Do not store together with: Combustible substance, reducing agents
Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Exposure Guidelines <br> Occupational exposure limits

|  | Potassium nitrate | Ammonium nitrate | Calcium nitrate |
| :---: | :---: | :---: | :---: |
| OSHA PEL | Not Established | Not Established | $15 \mathrm{mg} / \mathrm{m}^{3}$ (Total dust) |
| STEL/ceiling | Not Established | Not Established | Not Established |
| ACGIH (2012 TLVs® and BEIs®) |  |  |  |
| TWA | Not Established | Not Established | $10 \mathrm{mg} / \mathrm{m}^{3}$ (TWA) (Inhalable.) |
| STEL/ceiling | Not Established | Not Established | Not Established |
| Derived No-Effect Level (DNEL) suggested by the manufacturer Workers (industrial/professional): |  |  |  |
|  |  |  |  |
| Potassium nitrate / Ammonium nitrate |  |  |  |
| DNEL Human, dermal, long term (repeated): $\quad 20.8 \mathrm{mg} / \mathrm{kg} /$ day (systemic) |  |  |  |
| DNEL Human, inhalation, long term (repeated): $\quad 36.7 \mathrm{mg} / \mathrm{rn}$ " (systemic) |  |  |  |
| DNEL Magnesium Nitrate No information available. |  |  |  |
| Calcium Nitrate No information available. |  |  |  |
| Monopotassium phosphate Inhalation $\quad 4.07 \mathrm{mg} / \mathrm{m}^{3}$ |  |  |  |
| Sodium borate No information available. |  |  |  |
| Derived No-Effect Level (DNEL) is the level of exposure to the substance above which humans should not be exposed. |  |  |  |
| Engineering controls |  |  |  |
| Use exhaust ventilation to keep airborne concentrations below exposure limits. |  |  |  |
| Eye/face protectionSkin Protection | Chemical goggles rear | red all the time. |  |
|  | Nitrile rubber gloves, Overall. | 0.11 mm thickness, | 480 min breakthrough time, recommended. |
| Respiratory Protection | Wear respiratory pr limits | tion, where airborne | centrations are expected to exceed exposure |
| General Hygiene Considerations |  |  |  |
| Avoid contact with eyes and skin. Wash hands and face thoroughly after handling. Have eye-wash facilities immediately available. Do not eat, drink or smoke when using this product. |  |  |  |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

## Information on basic physical and chemical properties

Appearance
Color
Odor
Odor Threshold
pH value
Melting point / freezing range
Boiling temperature / boiling range
Flash point
Vaporisation rate / Evaporation rate
Flammable solids
Explosion limits (LEL, UEL)
Vapor pressure
Vapor density

Solid, granular or crystalline powder
White to pale blue
Odorless
Not applicable
No data available

Oxidizer

## 10. STABILITY AND REACTIVITY

Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.

## Reactivity

No hazardous reaction when handled and stored according to provisions.

## Chemical stability

Stable under normal storage and temperature conditions.

## Possibility of hazardous reactions

None identified

## Conditions to avoid

Keep away from flammable, combustible and reducing substances.
Incompatible materials
Flammable, combustible and reducing substances under specifc conditions.

## Hazardous decomposition products

Thermal decomposition products: Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.

## 11. TOXICOLOGICAL INFORMATION

The following information mostly refers to the major components of the product.
Likely routes of exposure (inhalation, ingestion, skin and eye contact)
Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use.

## Symptoms related to the physical, chemical and toxicological characteristics

May be irritant to the respiratory tract. Causes serious eye irritation. May cause redness or irritation to the skin. Ingestion of large amounts may cause gastrointestinal disturbances. May cause delayed lung effects after short term exposure to thermal degradation products.

## Information on toxicological effects from short and long term exposure

There is no data for the mixture itself.

## Acute toxicity

Acute oral toxicity LD50:
Acute Toxicity Estimate for the mixture $>2000 \mathrm{mg} / \mathrm{kg}$ bw (additivity formula)
Potassium nitrate
Ammonium nitrate
Magnesium Nitrate
Calcium nitrate
Monopotassium phosphate
Sodium borate
Assessment / classification:
Irritant and corrosive effects
Irritation to the skin
Potassium nitrate
Ammonium nitrate
Magnesium Nitrate
$>2000 \mathrm{mg} / \mathrm{kg}$ bw
2950 mg/kg bw
5440 mg/kg Oral Rat
$500 \mathrm{mg} / \mathrm{kg}$
$>2000 \mathrm{mg} / \mathrm{kg}$ Oral Rat, $>2000 \mathrm{mg} / \mathrm{kg}$ dermal Rabbit
low acute oral toxicity
Based on available data for the ingredients of the mixture, the classification
criteria are not met.

Assessment / classification:
Result Method
non-irritant. Equivalent/similar to OECD guideline 404
non-irritant. Equivalent/similar to OECD guideline 404
No known significant effects or critical hazards
Based on available data, the classification criteria are not met.

Irritation to eyes
Potassium nitrate

Result
Not-irritating

Method
OECD Guideline 405

Ammonium nitrate
Calcium nitrate
Assessment / classification:

## Respiratory or skin sensitisation

Skin sensitization
Potassium nitrate
Ammonium nitrate
Magnesium nitrate
Calcium nitrate
Respiratory sensitisation
Monopotassium phosphate
Sodium borate
Assessment / classification:

Irritating (cat. 2)
Serious eye irrit. cat. 1
Based on available data for ingredients of the mixture, this product is classified and labelled as Eye irritant, cat. 1.
Result Method
not sensitizing. OECD Guideline 429
not sensitizing. OECD Guideline 429
Skin Irrit. 2 OECD Guideline 429
Not hazardous by OSHA/WHMIS criteria
No information available.
not sensitizing.
not sensitizing Primary Dermal Irritation Study - U.S. EPA FIFRA
Based on available data, the classification criteria are not met.

## Genetic effects

The product does not contain ingredients classified as germ cell mutagens.
Bacterial (Ames Test) Chromosomal aberrations Mutation in mammalian cell:
Potassium nitrate negative negative negative
Ammonium nitrate negative negative negative
Magnesium nitrate negative negative negative

Calcium nitrate No known significant effects or critical hazards.
Monopotassium phosphate does not contail any substances considered probable or suspected human carcinogens.
Assessment / classification: Based on available data, the classification criteria are not met.

## Reproductive toxicity

Adverse effects on sexual function and fertility/developmental toxicity
OECD guideline 422.
Potassium nitrate No adverse effects on fertility/development (NOAEL >1500 mg/kg bw).
Ammonium nitrate No adverse effects on fertility/development (NOAEL $>1500 \mathrm{mg} / \mathrm{kg}$ bw).
Calcium nitrate
No known significant effects or critical hazards.
Present at levels $\geq 0.1$ No known significant effects

## Specific target organ toxicity (single exposure)

The product does not contain relevant ingredients classified as Target Organ Toxicant after single exposure.

Ammonium nitrate
Potassium nitrate
Magnesium nitrate
Calcium nitrate
Monopotassium phosphate
Assessment / classification:

Practical experience / human evidence
No relevant effect have been observed after single exposure to potassium nitrate.
Not available
No known significant effects or critical hazards.
Not applicable
Based on available data, the classification criteria are not met

Specific target organ toxicity (repeated exposure)

|  | Organs affected: | Effects | Guideline |
| :---: | :---: | :---: | :---: |
| Potassium nitrate | None | No effects (NOAEL > IS00 mg/kg bw) | OECO 422 |
| Ammonium nitrate | None | No effects (NOAEL > $\mathrm{ISOO} \mathrm{mg} / \mathrm{kg} \mathrm{bw}$ ) | OECO 422 |
| Magnesium nitrate | No information available |  |  |
| Calcium nitrate | Prolonged or rep Eye: Irritating to or hazy vision. | contact may dry skin and cause irritatio Signs/symptoms may include redness, | elling, pain, |
| Monopotassium ph | te Not appl |  |  |
| Sodium borate | Present | $s \geq 0.1$ No known significant effects |  |

## Aspiration hazard

Physicochemical data and toxicological information does not indicate an aspiration hazard.
Assessment / classification: Based on available data, the classification criteria are not met

## Carcinogenicity

International Agency for Research on Cancer (IARC)

National Toxicology Program (NTP)

29 CFR part 1910, subpart Z

California Proposition 65

WHO (2003) Nitrate in drinking water
Magnesium nitrate 2A - Group 2A: Probably carcinogenic to humans (Magnesium nitrate hexahydrate) confirmed human carcinogen by IARC.
No component of this product present at levels $\geq 0.1$ is identified as known or anticipated carcinogen by NTP.
No component of this product present at levels
$\geq 0.1$ is identified as carcinogen or potencial carcinogen by OSHA.
No component of this product present at levels $\geq 0.1$ is identified as carcinogen by California Prop. 65.
No association between nitrate exposure in humans and the risk of cancer.
Assessment / classification: Based on available data, the classification criteria is not met

## Other Toxicological Information

This product contains trace amounts of naturally-occurring perchlorate and iodate. Like other goitrogenic substances, perchlorate may affect iodine uptake by thyroid under specific conditions.

## 12. ECOLOGICAL INFORMATION

There is no data for the mixture itself. The following information mostly refers to the major component of the product.
Ecotoxicity

Not available
Calcium nitrate
Fish: LC50 $447 \mathrm{mg} / \mathrm{I}$ Fresh water 48 h
Assessment / classification: Based on available data, the classification criteria is not met
Persistence and degradability
The product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the Phosphorus cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

## Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of main components.

## Mobility in soil

The components of this mixture have a low potential for adsorption. Portion not taken up by plants, can leach to groundwater.
Other adverse effects
Excess nitrate leaching may enrich waters leading to eutrophication.

## 13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable federal and state laws. Product should, if possible, be used for an appropriate application.
Waste containing nitrates that exhibit the characteristic of ignitability has the EPA Hazardous Waste Number of D001 according to the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.
