### CAUTION: KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed. Avoid breathing dust, and contact with skin, eyes and clothing. If ingested, give two glasses of water, induce vomiting and call a physician. If in eyes or on skin flush with water. If on clothing, launder before reuse. Wash thoroughly after handling.

#### USE PRECAUTIONS

This fertilizer has been formulated for growing plants in soilless culture. This formulation contains Boron and Molybdenum. The Boron could be injurious to Boron sensitive crops. The Molybdenum could be injurious to ruminants feeding on treated plant material. The grower is cautioned, before using this mixture, to determine that the primary plant food and micronutrient composition meets his specific requirements.

This material is compatible with most insecticides and fungicides. Do not use in combination with Bordeaux, lime, highly alkaline materials or nutritional calcium sprays. If compatibility is not known, test on small area before use.

Timing, method and rates of application, differences in plant varieties, growing conditions and other influencing factors are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material.
